About Company

Our mission keeps us focused and accountable, our vision drives us and our values dictate how we succeed.

To best understand how we are different, we invite you to learn about our story...

Mountaun monk faucet india is a fast-growing Manufacturing company that keeps culture and creativity at the heart of everything we do.

We are four individuals with a passion for creativity-creativity makes us happy. We believe in the transformative power of craft and design and their ability to simplify communications, elevate experiences, engage and inspire people everywhere. Let's make something beautiful together.

Mclinz provide affordable shower with proven design in a range of styles and finishes offering consumers an easy way to refresh the bathroom.

This provides unparalleled control of product quality and an ability to quickly deliver products to any location in the world. Distributed through selected sanitary & hardware stores and other retail outlets.

Mclinz Culture

Here at McLINZ, we believe there's a better way to be - not just as marketers, but as humans. We're here to create a space where everyone's welcome, we have big goals. And it all starts with the core values that we live and breathe every day.

Transparent

We will represent ourselves and our intentions honestly to our co-worker's and our customers, sharing as much of the truth as we can without sacrificing our other values.

Accountable

We are personally responsible for outcomes. We communicate and honour our commitments to our customers and to each other. Results matter. How we show up also matters. We take ownership of our work, we learn from mistakes and we celebrate our successes.

Exceptional

The exception to the rule, we will avoid the assumption that Existing norms are the right path. We choose to build our products and company in a way that critically examines best practices, often paving our own better path forward.

What makes us Different?

Our passion stems from our people. We value diversity and believe that different backgrounds, ideas and perspectives are what make us a stronger and more capable team of marketers.

We blend our strengths together, combining our business experience and creative minds to bring the best ideas to the table and drive results for our partners.

Our Social Responsibility

All we do at MCLINZ is built upon the foundation of our values. Integrity, empathy, trust, diversity & experience... Just to name a few. In keeping with these values, we are committed to providing an extraordinary standard of care and service not only to our people, clients, candidates and strategic partners but to our society. As a part of this commitment, we offer our time and subject matter expertise as well as 5% of net profit annually to various philanthropic organizations. To make a true positive social impact.

ELEGANCE COLLECTION

The first way to get the robust, cool, black shower is to coat the stainless steel with pvd (pvd meaning physical vapor deposition). The process of physical vapor deposition can, in short, be explained as vaporizing the surface of the metal and then turning the vapor back to the metal surface in a vacuum environment.

Softest Water Flow Everytime

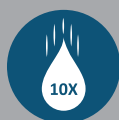

Easily washable silicone nozzle gives you the softest water flow every time

PVD Coating

Reducing water spots by protecting from rust, corrosion & mineral buildup

KOLLER COLLECTION

Physical Vapor Deposition (PVD) is a process used in the shower to create a durable, long-lasting finish on metal surfaces. The process involves the deposition of a thin layer of material onto the surface of the shower piece through a physical process such as evaporation or sputtering.

GENERAL INFORMATION

•Prices

All prices include GST and are subject to change without prior notice.

•Care and Maintenance

McLinz products are manufactured to exacting standards and following the care and cleaning guidelines below will ensure that your bathroom will give you years of effective use.

•Shower & Brassware

Shower and brassware products should be cleaned with a diluted mild detergent such as washing up liquid. Applied with a soft sponge or cloth, and then buffed dry with a microfiber cloth.

Avoid using acids, rough sponges or steel wool and do not leave detergent on the products for long periods of time.

•General

NEVER use products containing bleach on bathroom products or any cleaners or cloths of an abrasive nature.

•End of Catalogue

All information correct at time of going to print. E&OE. Prices subject to change without prior notice.

Colours printed in this catalogue are as accurate as the printing process allows and are for guidance only.

FOR EXAMPLE WATER PRESSURE CAN BE CALCULATED AS FOLLOWS :

Upstairs bathroom shower 1 m = 0.1 bar pressure

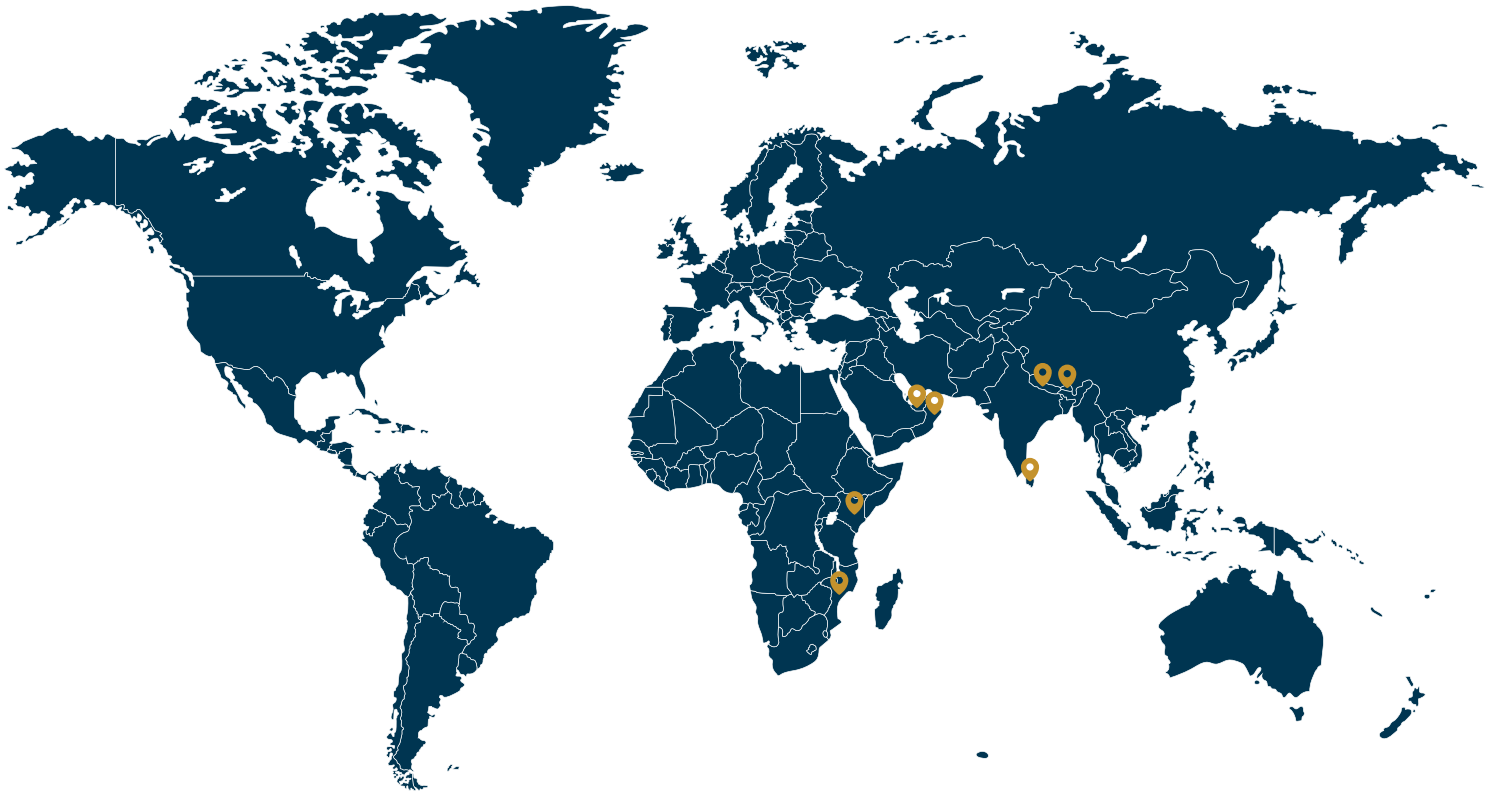

Upstairs bathroom basin taps 2 m = 0.2 bar pressure

Kitchen Tap 5 m = 0.5 bar pressure
